

Reduce

Reduce means to use less of something.

Recycle Roo says use plastic containers for your lunch so that you can reduce plastic wrap.

Reuse

Reuse means to choose things that you can use again.

Recycle Roo says bring a drink container to school that you can use everyday instead of a container you throw away.

Recycle

We recycle when we make something new from something that's been used.

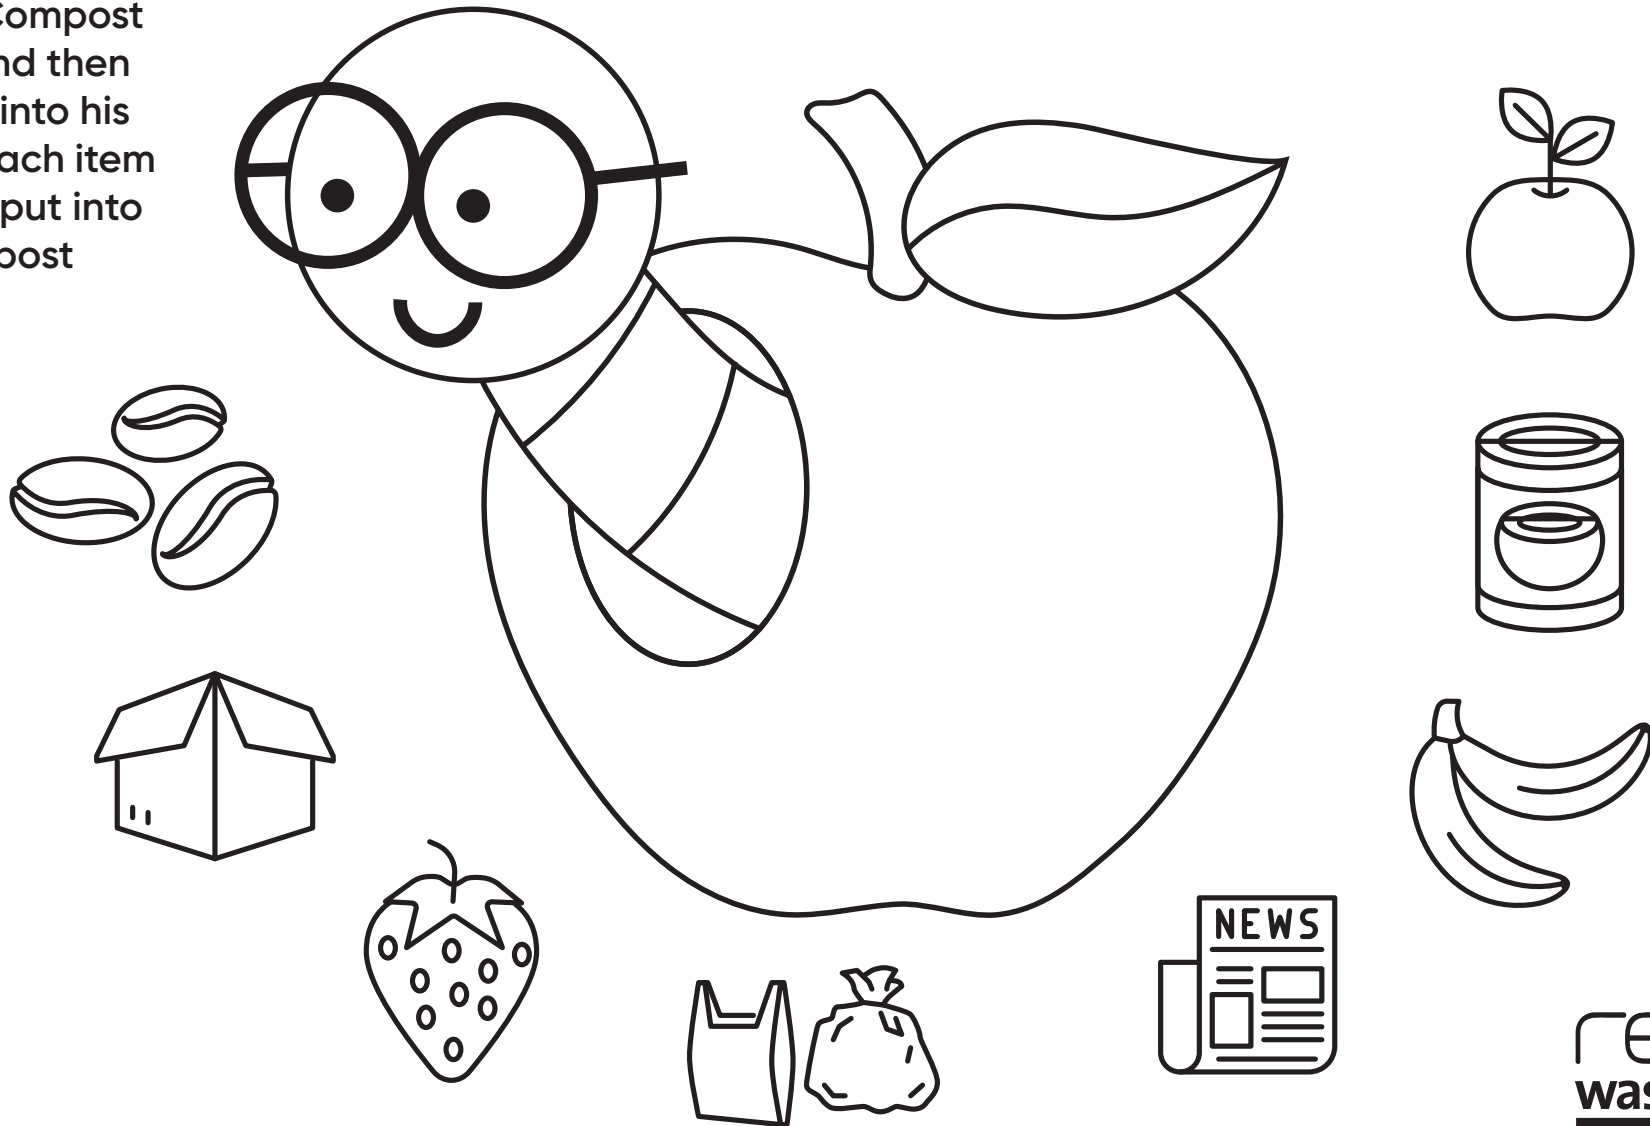

Recycle Roo says things made from paper, glass, aluminium, steel and plastic can all be recycled to make something new.

Recycle Roo

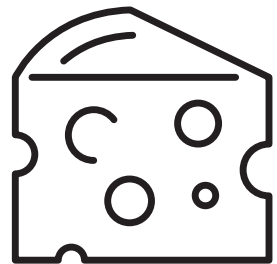

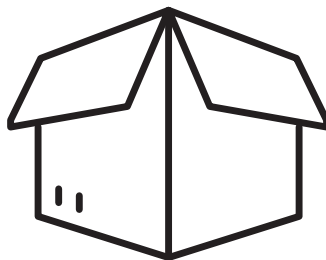

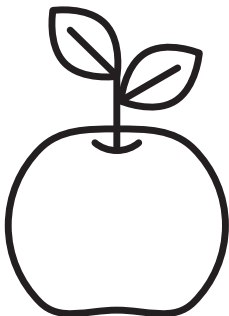

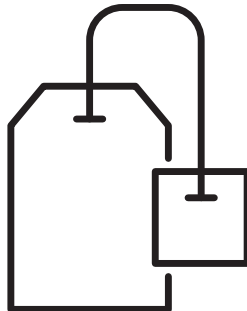

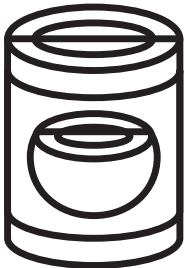

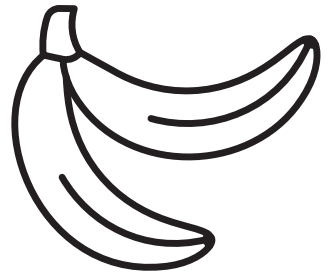

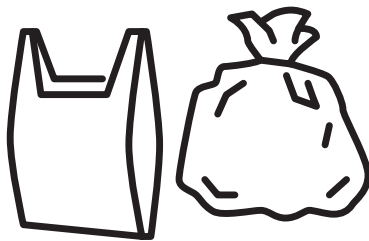

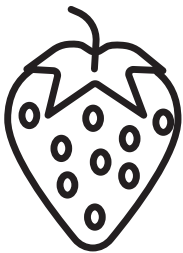

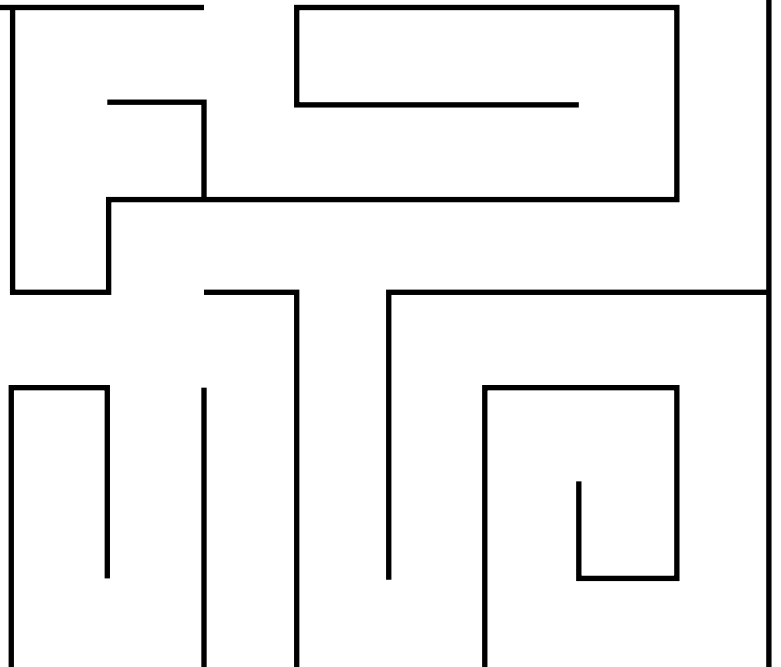

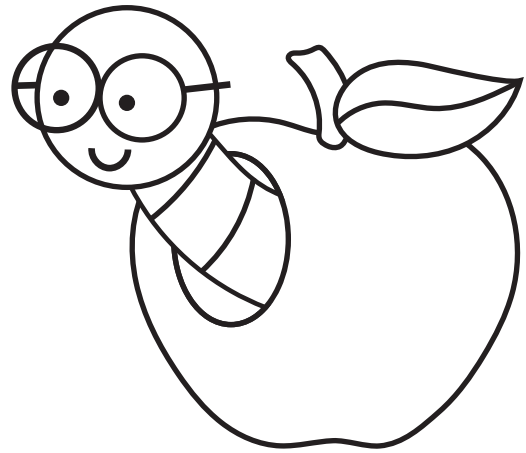

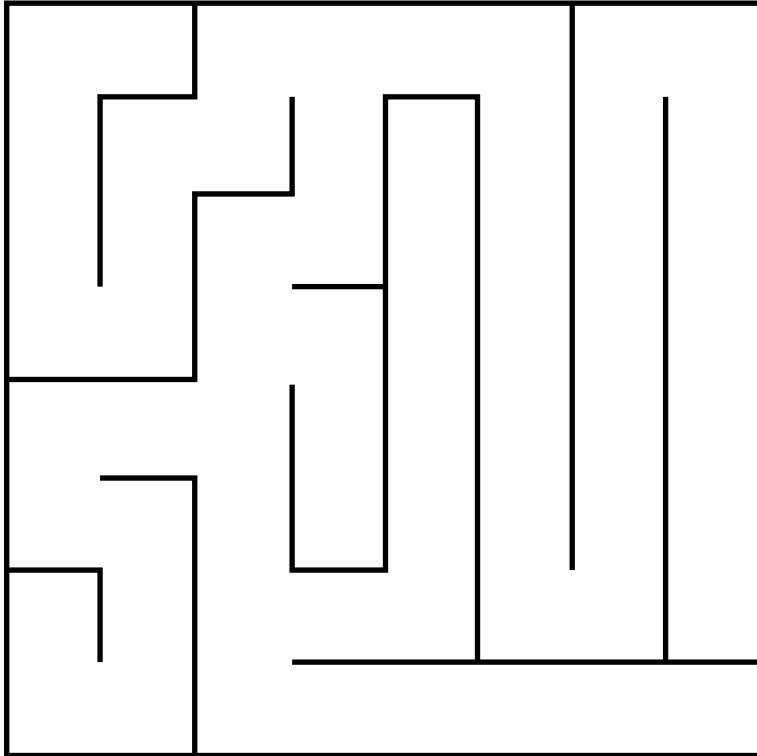

Colour the Compost Doctor in and then draw a line into his apple from each item that can be put into the compost

Circle the things that the Compost Doctor can put in the compost to make him healthy and happy

Help the compost doctor find his way around the maze to collect the compost foods that make him healthy and happy
